Title of contribution

Name(s) of author(s)

Department, University, Mailing address, Country
`[myemail@address]`

Please put here the text of your contribution. The entire text, including references, should fit into one page with the above dimensions, after running LaTeX on the file. Contributions longer than that may not be printed in the booklet of abstracts distributed at the Congress.

There will be no galley proofs for abstracts, so be sure that your text is in its final form. Do not introduce any section commands or define any macros.

Below are some examples of references; you can cite in the usual manner: [1] and [3].
